

2X2 SPECIAL EDITION

ON AND OFF-ROAD

The Special Edition reflects your adventurous life. Carefully crafted to provide a comfortable, yet tough and durable riding experience. Accessorized and ready to go, whether you're running essential errands or heading out into the wild.

AWD

All-wheel drive with 2x hub motors

A 1kW hub motor in both front and rear wheels provides better handling and traction in wet weather and uneven terrain.

4-6hrs

Full charge time

Our 10 Amp charger plugs straight into your wall socket. Charge the bike overnight ready for the next day, or give it a top up while you have lunch.

UBCO.COM

30mph/50kph

Max speed

At 30mph/50kph you can zip around town, traverse open fields or enjoy challenging trails. Change from eco to boost mode when tackling a tougher ride.

330lb/150kg

Recommended carry weight

Recommended carry weight is 330lb/150kg (including the rider). Adjustable suspension also allows you to select the perfect setting for a more comfortable ride with heavier loads.

*Range is affected by variables such as weight, incline, and terrain.

50mi/80km

Off-road range

With around 50mi/80km in off road conditions you can run all your essential errands or head out into the wild (75mi/120km achieved under test conditions)*

19 lugs

To secure and carry gear

The 3D alloy frame includes 19 accessory lugs. The lugs use standard M8 nuts and bolts for attaching tie downs, mounts and accessories.
